DETAILED ACTION

Response to Amendment

1. The Applicant's Amendments and Accompanying Remarks, filed June 11, 2004, have been entered and have been carefully considered. Claims 1 – 11 are amended, claims 15 – 17 are added, claims 12 – 14 are cancelled and claims 1 – 11 and 15 – 17 are pending. All rejections have been overcome.

Reasons for Allowance

2. Claims 1 – 11 and 15 – 17 are allowed.

3. The following is an examiner's statement of reasons for allowance: the rejection as being unpatentable over Rock et al. (US 5,817,391) in view of Lumb et al. (US 5,312,667) has been overcome by the present response. It should be noted that Rock et al. (US 5,817,391), Rock et al. (US 5,547,733) and Conway (US 5,906,876) are considered to be the most pertinent art.

However, Rock '391 fails to teach or suggest a plaited two-layer fabric and the functionality of Rock would be lost if the material was plaited. Rock '733 fails to teach or suggest that the raised surface of the inner layer has a raised pattern of intersecting channels. Conway fails to teach or suggest that the intersecting channels of the upper portion can be made of *hydrophilic* rather than *hydrophobic* yarns as taught by Conway.

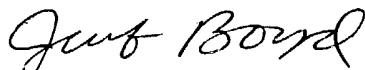

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
